**UHD Signage** UL3G Series

# LG UHD Signage

Superb Picture Quality

webOS Smart Platform

Meeting Room Solution

Convenient Maintenance

FULL HD                      ULTRA HD

### ULTRA HD Resolution

With the resolution that is 4 times higher than FHD, it makes the color and details of the content more vivid and realistic.

### High Efficiency Video Coding

The UL3G series supports HEVC which efficiently compresses/decompresses high-capacity UHD content, playing ultra-high quality videos with half the network traffic than the existing H.264 codec.

### High Performance SoC with webOS

Built-in SoC can execute several tasks at once while providing smooth content playback without the need for a media player. Also, the LG webOS smart signage platform enhances user convenience with intuitive GUI and simple app development tools.

### Various Sensor Applications

The LG webOS smart signage platform easily supports connections with external sensors via USB plug-in. The overall cost for maintenance is reduced as there's no need to purchase additional software or media players for creating value-added solutions.

### Content Sharing

Content Mirroring among devices is more convenient on a Wi-Fi network.

### Real-time Promotion

With Beacon and BLE (Bluetooth Low Energy), shop managers can provide coupons and information in real-time.

### Wireless Solution

The UL3G series operates as a virtual router which can be a wireless access point for mobile devices.

### Compatibility with AV Control System

The UL3G series has been certified Crestron Connected® for high compatibility with professional AV controls to achieve seamless integration and automated control\*, boosting business management efficiency.

\* Network based control

### Compatibility with Conferencing System

For the optimum visual meeting, the UL3G series has certified its compatibility with Cisco System that offers powerful and integrated control\* for a smarter video conference, eliminating a waste of time for setting up the picture quality or changing input on incoming calls.

\* Using an HDMI cable connection

### Remote Monitoring and Control

Through the Control Manager, the embedded web monitoring solution, you can control and monitor the status of multiple UL3G series displays in different locations in real-time. It is available on internet connected devices, allowing you to flexibly and rapidly respond to emergency situations anywhere.

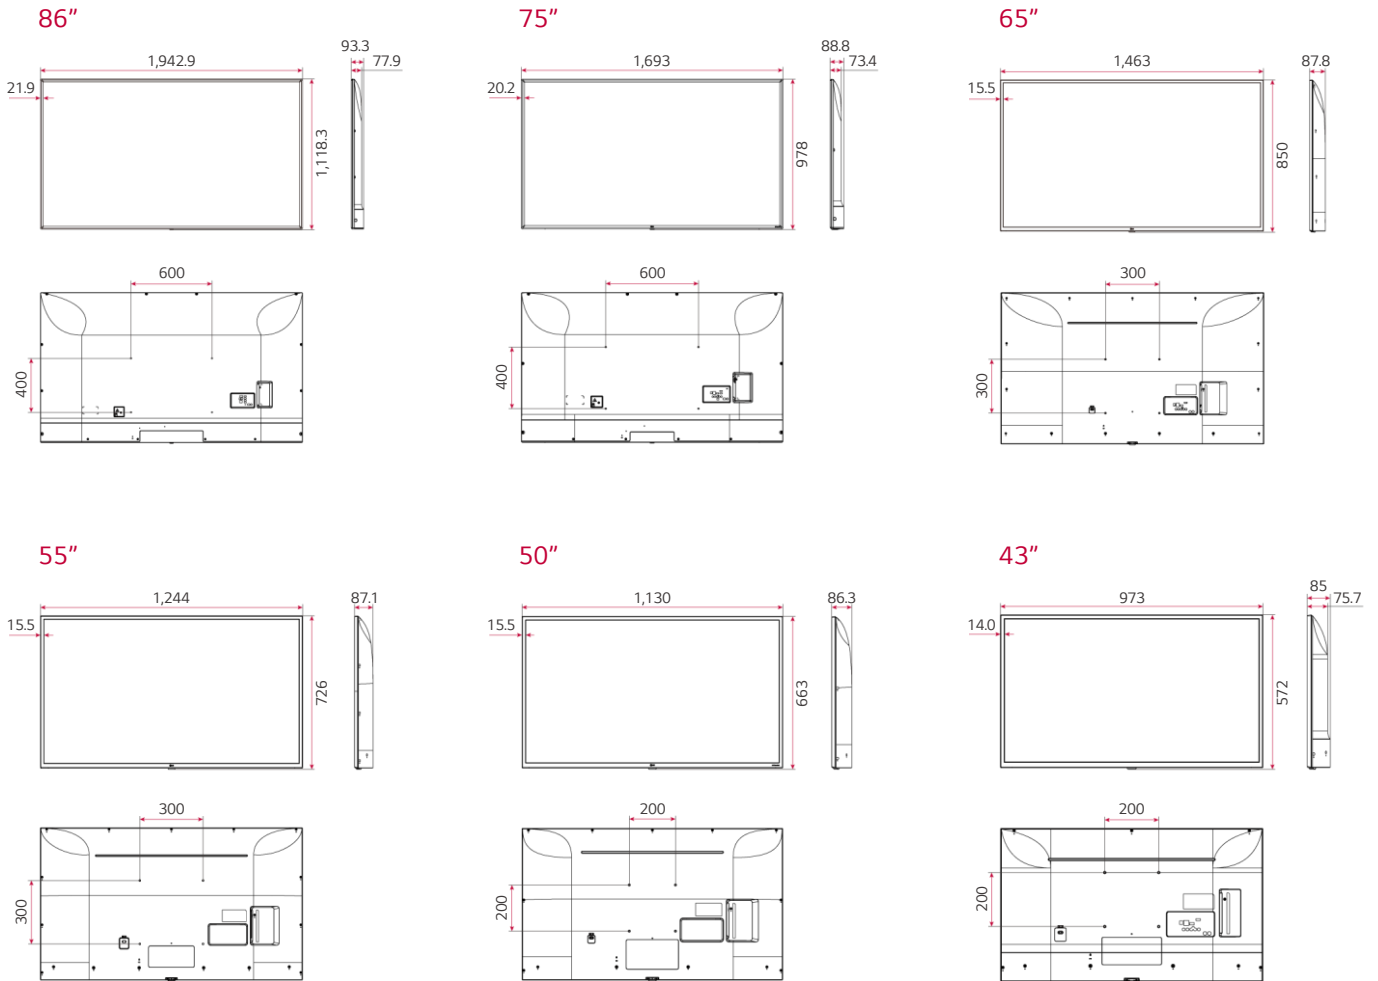

### Real-time Care Service with LG Signage365Care

The maintenance gets easier and faster with an optional service Signage365Care\*, a cloud service solution provided by LG service. It remotely manages status of displays in client workplaces for fault diagnosis and remote-control services, ensuring the stable operation of a client's business.

\* The availability of "Signage365Care" service can differ by region, so please contact the LG sales representative in your region for further details.
